NEW YORK PRODUCE.

Action of House Committee in Supporting Utilities Board Discourages Financiers.

OTHER FINANCIAL NEWS

Restricted Trading on Local Exchange Prices Generally Firm-Action on Reduced Tax Delayed.

Local financial circles are frank in declaring that the attitude of the House District committee committee to the House District commissioners with respect to public utilities will discourage any serious attempts at refinancing or consolidation of local public service corporations.

The action of the House District Committee in pigeon-holing the Fairchild bill authorizing the merger of the Washington Railway and Electric and the Potomac Electric Power companies is taken as notice that the commistee will join the Commissioners, in opposing any change in the status of local companies, at least until the physical valuation reports shall have been made public and consequent attempts to lower service tariffs shall have been disposed of.

Shareholders in competing utilities companies, narticularly those in the two street railway companies, are now more nearly agreed on consolidation than every before, and those favoring a merger are seonvinced that it could be consummated with little trouble were it not for the antagonism of the Public Utilities Commission.

The Commissioners, however, are gen-

with little trouble were it not for the antagonism of the Public Utilities Commission.

The Commissioners, however, are generally believed to be striving to shape the situation so that, when the physical valuations shall have been completed, public ownership of all local utilities will appear in the most favorable light. If this is correct, it is apparent that any attempt at consolidation will meet the strongest opposition of the Commissioners, as was the case with the Fairchild bill.

Local utility corporations do not intend to accept the physical valuations report to the consolidation will meet the strongest opposition with the physical valuations report to consider all the elements involved in a physical valuation with justice to both public and corporation.

As a result of this feeling, and in anticipation of Dr. Bemis' report, local utility companies have employed accredited accountants and valuation experts to parallel Dr. Bemis' labors, and appeal to the courts from the valuations set by the utilities commission is looked forward to as a certain necessity.

Steamer Line Not Sold.

Steamer Line Not Sold.

Steamer Line Not Sold.

A slight flurry was occasioned in local circles yesterday by the report that Charles W. Morse had purchased control of the Norfolk and Washington Steamboat Company. The report came from Norfolk in the form of a telegraphic Inquiry and for a while refutation was difficult. It developed finally that Norfolk circles had confused the Norfolk and Washington Steamboat Company with a ship plying between Norfolk and New York, which Morse had purchased along with several others. There has been no movement, big or small, looking toward the purchase of the Norfolk and Washington Company.

Will Reinsure Outside Rinks.

Stockholders of the Arlington Fire Insurance Company, at a special meeting yesterday afternoon, adopted a resolution proposed by the directors determining upon a policy of reinsuring all outside risks and continuing to carry present local risks until the expiration of all policies without issuing new policies, the stockholders will be called together again. The directors will meet Friday, when a statement is expected.

Prices Generally Firm.

Prices Generally Firm.
Restricted trading with prices generally firm marked yesterday's session of the local stock exchange. With the exception of Railway is bonds were strong, though factional differences kept buyers and sellers apart in most instances.

Stocks were inactive with the exception of Norfolk & Western and Federal National Bank. Two ten-share lots of the former sold at 150 1-2, respectively, and the bank stock sold at 16, seven points up from the last previous sale.

Cuba Cane Sugar Corporation

Seven Per Cent. Cumulative Convertible Preferred Stock.

Convertible share for share into common shares at any time at option of holder. GUARANTY TRUST COMPANY OF NEW YORK,

Transfer Agent.

COLUMBIA TRUST COMPANY,

Incorporated under the laws of the State of New York.

Preferred as to assets as well as dividends. Redeemable in whole or in part, at option of the Corporation, any dividend date, on sixty days' notice, at 120 and accrued dividends. Quarterly dividends payable on the days of January, April, July and October.

CAPITALIZATION.

Authorised and Outstanding.

Preferred Stock, 500.000 shares—par value \$100—\$50,000,000. Common Stock, 500,000 shares—without par value.

NO MORTGAGE OR OTHER BONDED INDEBTEDNESS OUTSTANDING. ben set side to retire liens outstanding against the properties at the time of purch

For information as to the Corporation, reference is made to a letter of Manuel Rionda, Esq., President of a Cane Sugar Corporation, copies of which may be obtained at our office, and from which we summarize

For information as to the Corporation, reference is made to a letter of Manuel Rionda, Esq., President Cuba Cane Sugar Corporation, copies of which may be obtained at our office, and from which we summar as follows:

1.—The Preferred Stock is represented by assets consisting of 17 sugar mills, 330,000 acres of land, 395 miles of railway, and other property located in Cuba and valued at more than \$50,000,000. (Proceedings for transfer of title to one of said 17 mills have not yet been completed and the amount of its land and railway, when accurately determined, may necessitate some change in the foregoing figures.)

2.—The lands of the Corporation are well located; it mills are well equipped.

3.—Cuba can produce sugar more cheaply by at least ½ cent per pound than any other part of globe.

4.—The Articles of Incorporation provide that an amount equal to 2 years' dividends on the Preferred Shares, shall be accumulated before any dividend may be declared or paid on the Common Shares, and that at no time shall any dividend be paid on the Common Shares which will reduce the accumulated profits below that amount. It is estimated that the earnings for the Current year will be sufficient to enable the Company, after paying the full dividend on the Preferred Shares, to set aside this entire reserve fund of \$7,000,000 and still leave a substantial surplus.

5.—Lowest average price at which sugar has sold in recent years was 2 1-16 cents, in 1912-13 owing to special causes not likely to recur. Even with sugar selling at 2 cents per pound, it is estimated that the Preferred Stock dividend will be earned at least 1½ times.

6.—Important economies of operation are possible, through unified operation of mills located in same district.

Good management is assured through connection with the Corporation as officers and stockholders of the content of

Good management is assured through connection with the Corporation as officers and stockholders of Mr. Manuel Rionda and his organization, who have a long record as successful sugar merchants and planters. The Board of Directors consists of experienced business men, many of whom have had long experience in the sugar

market value of the Common Shares, representing the equity in the property, is over \$28,000,000.

All legal details incident to incorporation have been under the supervision of Mesars. Sullivan & Cromwell, of New York City.

Application will be made to list these Shares on the New York and Havana Stock Exchanges.

We recommend the above described Preferred Stock of Cuba Cane Sugar Corporation for investment

J. & W. SELIGMAN & CO. NEW YORK.

All of the above Shares having been sold, this advertisement appears as a matter of record only The above information has been obtained from sources we believe to be reliable, but is not guarantee
